

EARNED VALUE

Earned value management helps you quantify the performance of a project. It compares costs and schedules to a baseline to determine if the project is on track.

If the charts don't look right, make sure you have set a baseline, assigned costs to tasks or resources, and entered progress.

EAC

\$40,900.00

ACWP

\$30,040.00

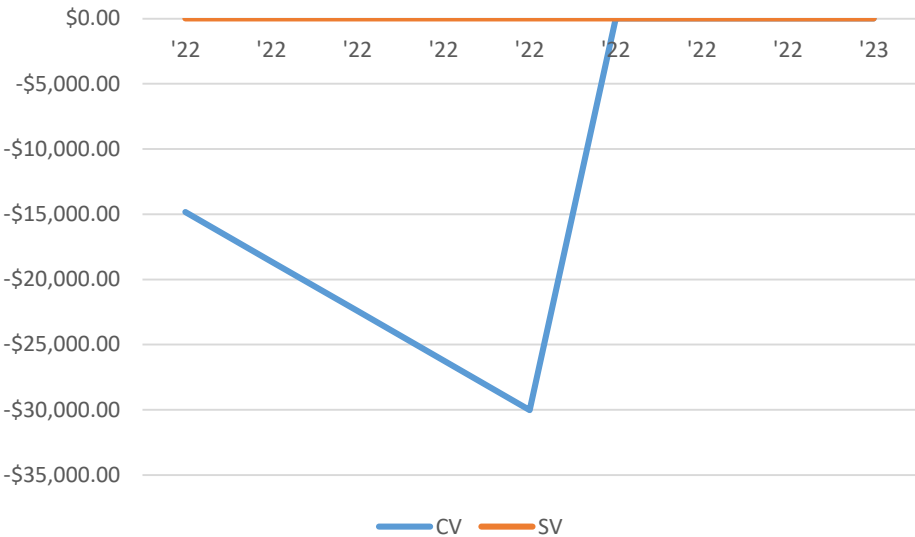

BCWP

\$0.00

EARNED VALUE OVER TIME
The project's earned value based on actual cost (ACWP) is higher than the budget (BCWS). If the ACWP is higher than earned value, then the project is over budget.

[Learn more about earned value](#)

VARIANCE OVER TIME
Cost and schedule variances for the project status date. If CV is negative then the project is over budget. If SV is positive then the project is over schedule.

INDICES OVER TIME
Cost and schedule performance indices for the project status date.
